

1820-1822 Septic Tank Location

The location of the septic tank openings for 1820-1822 are indicated by the two blue dots which are on the north side of the patio of 1826. The primary opening is 39' from the edge of the 1826 building directly north of the west side of the column on the façade of 1826. The primary opening is also 9.5' SE from the corner of the large rock that is just to the NW of the openings. When measured from the rock wall edging the patio, the primary opening is 3' from the edge of the rock wall. Opening # 2 is approximately 3' to the NNW of the primary opening.
